It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

CARE OF SCHOOL HOUSE FLOORS.

The following communication was presented:—

City of Boston,

In School Committee, June 13, 1905.

The Committee on School Houses, to whom was referred—Apr. 25—a petition on behalf of the Boston Primary Teachers' Association, that provision be made for

having the school rooms swept more than twice a week, and washed more frequently than they are at present, report that they have granted a hearing thereon and have carefully considered the entire subject of cleaning school buildings. It appears upon investigation that Boston does not exact as high a standard of cleanliness in its rules for janitors as is required in other sections of the country. In twenty other large cities the school rooms are swept daily as compared with twice a week in Boston. In many of these twenty cities the floors of school rooms are scrubbed once a month, or ten times a year. In other cities the scrubbing is less frequent, but usually in excess of the former requirement in Boston, viz., once a year. In February, 1904, this Board abolished the rule requiring an annual scrubbing during the summer vacation, which had been in force for many years, thus relieving the janitors of an amount of work of an approximate value of \$300 for which they are paid under the present schedule of salaries. In March of the present year a rule was adopted that floors paved with marble, slate or terrazzo be washed as frequently as may be necessary to keep them clean. This, however, is but a slight additional requirement, as the area of such floors is but a small percentage of the total floor area of our school buildings.

Your committee are strongly of the opinion that a high standard of cleanliness in school buildings should be maintained, but this is largely a question of expense. If the finances of the School Committee would warrant such action, your committee would recommend that all rooms used for class purposes, corridors, stairways and sanitaries be swept each day, that such floors be scrubbed at least three times a year, and that windows be washed inside and out at least three times a year, and on the inside only at least once a month. The present schedule, however, does not include payment for such extra work, and it would be unfair to require the janitors to perform it without additional compensation.

Your committee also believe that if principals and other instructors would pay more attention to enforcing Section 231 of the Regulations, which prescribes that pupils must come to school cleanly in person and dress, and endeavor to discourage the tracking of dirt into school buildings especially in muddy weather, a material improvement in the condition of such premises would not fail to result.

In view of the state of school finances for the current year, your committee cannot hope to obtain a further appropriation to be expended for janitor service. They therefore reluctantly recommend that the request of the petitioners be referred to the next School Board.

Accepted, and the recommendation of the committee adopted.

A true copy.—Attest:

Thornton D. Apollonio, Secretary.

On motion of Mr. Ellis the reading of the foregoing communication was omitted, and it was laid on the table.

SALARIES OF JANITORS OF LATIN AND HIGH SCHOOL HOUSES.

The following communication was read:—
City of Boston,

In School Committee, Nov. 14, 1905.

divided as follows: Twenty per centum to the janitor of the Public Latin School-house, and eighty per centum to the janitor of the English High School-house. Such schedule shall take effect Dec. 1, 1905, and continue until otherwise ordered; and the areas used in the determination of such salaries shall be such as shall have been respectively certified by the School-house Custodian, and approved by the Committee on Salaries.

Referred to the next School Board.

Thornton D. Apollonio, Secretary.
On motion of Mr. Ellis, laid on the table.

MINORS' LICENSES.

The following communication was read:—
City of Boston,

In School Committee, Dec. 26, 1905.

The vote passed at the meeting of Sept. 12, 1905, whereby the following proposed amendment to the regulations, viz.:—

ORDERED. That the regulations be amended as follows:—

Chapter XXVI. Add the following section to the chapter:—

Sect. 349. The truant officers shall have oversight of licensed minors, and require them to conform to the conditions on which such licenses are granted, reporting all violations of said conditions to the Superintendent, through the chief truant officer.

was referred to the Committee on Truant Officers, was rescinded.

Said amendment was referred to the next School Board.

A true copy.—Attest:

Thornton D. Apollonio, Secretary.
On motion of Mr. Brock, laid on the table.

Mr. J. J. Storrow, Chairman School Committee, Boston.

Dear Mr. Storrow: I hope it may be possible for you to arrange for a meeting between the School Committee and the Board of Schoolhouse Commissioners at an early date. We should be glad to come to Mason Street at any time that is convenient to you. There are a number of matters of general policy which concern us both intimately, and which ought to be decided together, and there are matters of detail which should receive early attention. Matters of general policy would include such things as our plans for the future looking toward the proper final accommodation of pupils who are at present in hired quarters or in portable buildings. The Board have complete data in regard to the existing conditions and a series of suggestions to make as to the possible solution of the problem in the districts which are congested. Among special things is the policy in regard to the Mechanic Arts High School (the plans for the extension of which are entirely complete and ready for contract), and the Commercial High School. There are a large number of such special matters on which we want the advice of the School Committee and of the Supervisors before we take any definite action.

Trusting that you will be able to arrange such a meeting at an early date,

I am, very truly yours,

R. Clipston Sturgis, Chairman.

PREPARATION OF PUPILS FOR HIGH SCHOOLS.

The following communication was read:—
English High School,
January 4, 1906.

Mr. J. J. Storrow, Chairman School Committee:—

Dear Sir: I desire to call your attention to a class of pupils who come to the high schools so poorly prepared for high school work, or so lacking in energy and industry, that they not only do not benefit by the high school instruction, but they impair the efficiency of the school, and are confirmed in their indolence.

As these pupils have received diplomas from the grammar schools, stating that they have honorably completed the course in those schools, or something to that effect, naturally they and their parents object to their being sent back to the grammar school after failure here. Furthermore, it is doubtful if any one has authority to force them to discontinue their studies in the high school, no matter how unsuccessful they are, or how pernicious their example may be. Certainly no one has attempted recently to exclude them from high school privileges on account of poor scholarship alone.

It will be impossible to state what percentage of the total high school membership should be placed in this category until a definite standard of scholarship is established, failing to attain which pupils should be considered failures. The percentage of failures is large enough, however, to warrant serious consideration.

Doubtless all pupils receive some benefit which cannot be expressed definitely in percentages, and the theory has been that, if the parents are content, the school must submit, with the result that we have all grades from almost perfection to almost complete failure.

Some pupils earn 75 or more diploma points in 3 years, others earn almost none in their lessons, and the rest cover almost every intermediate point.

I cite one or two instances of pupils now here.

— entered school Sept., 1905. Marks on a scale of 10:—

	English.	History.	French.	Book-keeping.
Sept. and Oct....	3	0	0	0
Nov. and Dec....	1	0	0	1

Marked by four different teachers, so that the teachers' personalities are eliminated. The father was consulted this week and was unwilling to withdraw the boy.

— entered school Sept., 1903, and ought to be graduated next June. He has earned diploma points in the following subjects, 60 points being required for a diploma:—

1903-4—Military drill, 3; hygiene, 1.
1904-5—Military drill, 3; hygiene, 1; algebra, 5.

1905-6—Has failed in all subjects thus far. Total, 13 points.

— entered school in 1903.

1903-4—Military drill, 3.
1904-5—Military drill, 3; hygiene, 1.
1905-6—Is passing in all subjects.

While it is desirable to extend the High School influence as far as possible, it is evident that the retention of such pupils as these adds to the expense of the schools. The exclusion of a few with a firm hand would have a very stimulating effect on all others, and would place the parents in a position where they would be obliged to co-operate with the teachers in securing better preparation of lessons.

Respectfully yours,

John F. Casey, Head Master.

On motion of Mr. Ellis, referred to the Board of Supervisors for consideration and recommendation as to what action should be taken to meet the conditions referred to in aforesaid communication.

COMPENSATION OF JANITOR NEW DEARBORN SCHOOL-HOUSE.

The following communication was read:—
Boston School Committee.

Office of Schoolhouse Custodian,
100 Boylston St., Jan. 8, 1906.

Boston School Committee, Mr. James J. Storrow, Chairman:—

Gentlemen: The new Dearborn School-house was opened for school purposes on

Tuesday, Jan. 2, 1906, and on Jan. 5 all of the classes of the old Dearborn School were removed to the new building.

In the salary schedule, on file in this office, there is no allowance made in the salary for the new building for the care of the yards of the old Dearborn School-house lot, which will have to be used as a playground by the pupils of the new building. It will therefore be necessary to re-certify the area of this yard so that the janitor may receive the proper salary for the new building. Mr. Moore, janitor of this building, has been receiving the salary of the former position he held as janitor of the Farragut School-house, namely—\$1332 per annum. I recommend that from Jan. 1, 1906, Mr. Moore receive the scheduled salary of \$1244 per annum until such time as the re-certification can be made.

Yours very truly,

Mark B. Mulvey,
Schoolhouse Custodian.

Laid over to the next meeting.

PAYMENT TO WILLIAM SENNOTT.

A communication was received from the Schoolhouse Custodian, under date of Jan. 8, 1906, recommending the payment of ten dollars to William Sennott, for services rendered as assistant to the substitute janitor at the old Dearborn School-house from Jan. 1 to 5, 1906, inclusive.

Placed on file.

On motion of Mr. Thomas J. Kenny, it was

ORDERED, That there be paid to William Sennott the sum of ten dollars (\$10) for services rendered as assistant to the substitute janitor of the old Dearborn School-house from Jan. 1 to 5, 1906, inclusive.

APPOINTMENT OF CHARLES RIORDAN.

A communication was received from the Schoolhouse Custodian, under date of Jan. 8, 1906, reporting the appointment of Charles Riordan as assistant to the acting janitor of the Everett School-house to date from Jan. 2, 1906.

On motion of Mr. Brock, approved.

SALARY OF JANITOR, SARAH J. BAKER SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Jan. 8, 1906, stating that the Sarah J. Baker School-house will not be ready for occupancy until Jan. 15, and recommending that the salary of the janitor be established to date from Jan. 11, 1906, instead of from Jan. 8, as suggested in a previous communication.

Placed on file.

On motion of Mr. William S. Kenny, the Board reconsidered the action taken at its meeting of Jan. 5, whereby the Chairman was authorized to approve the certification of the areas of the Sarah J. Baker School-house, and the salary of the janitor was established in accordance therewith, to date from Jan. 4, 1906.

On motion of the same member, the matter was laid on the table.

SMOKE NUISANCE, DORCHESTER HIGH SCHOOL.

The following communication was read:—
Office of the Schoolhouse Custodian.
Jan. 8, 1906.

Boston School Committee, Mr. James J. Storrow, Chairman:—

Gentlemen: In compliance with your instructions relative to investigating the emission of smoke from the Dorchester High School-house, I beg leave to submit the following report:—

I find that this plant consists of three horizontal return tubular boilers, 66 inches in diameter, 18 feet long, with a grate surface of 35 square feet under each boiler, consuming on an average of about 5 tons of soft coal per day. I made observations covering about two hours' time and found black smoke issuing from the chimney about 7 minutes each hour.

The building is a light buff colored brick with light sandstone trimmings, and bears no marks which would indicate accumulations of soot. Many of the houses in the neighborhood have white trimmings. I have examined many of these closely and find no indications of a soft coal nuisance apparent in the discoloration of any of the buildings.

I called at numbers 35 and 51 Centre St., numbers 23, 46 and 66 Brent St., and number 433 Talbot Ave., and none of the occupants of these houses, all of which are within a radius of 150 yards of the school buildings, complained of the emission of smoke from the building. Many of the yards had white clothes on the lines, and I investigated to ascertain whether or not there was any soot falling on them and found none.

At number 428 Talbot Ave., a woman complained very much about the smoke nuisance, and stated that large pieces of black coal had fallen on her washing in the yard frequently.

I was informed by the janitor that, prior to this year, a furnace for burning paper was in use in the building, from which large pieces of burned paper used to fall in the neighborhood, but this was remedied by placing a wire netting at the top of the stack, and that only occasionally a small piece of this burned paper would fall. Perhaps this explains the last complaint.

While there is a smoke consumer in connection with this plant, it is of absolutely no value. It is my opinion that a reliable smoke consuming apparatus could be installed in this plant so that this emission of smoke would be obviated.

The use of soft coal in this building means a saving of about 20 per cent. in the number of tons used over hard coal, also about \$2.00 per ton less in the cost, and, as this plant consumes about 450 tons per annum, the material saving is apparent.

I submit this to you for your information.

Very truly yours,

Mark B. Mulvey,
Schoolhouse Custodian.

Placed on file, and the Secretary directed to send one copy of the aforesaid communication to His Honor the Mayor, and another to the Board of Schoolhouse Commissioners with the recommendation that said Board be requested to consider the advisability of equipping this building with a reliable smoke consuming apparatus.

SUSPENSION OF SESSION, FRANKLIN EVENING SCHOOL.

On motion of Mr. Thomas J. Kenny, it was

ORDERED. That the sessions of the Franklin Evening School be suspended on Wednesday, Jan. 17, 1906, on account of exercises to be held that evening commemorating the 200th anniversary of the birth of Franklin.

REDUCTION OF EXPENSES.

The following communication was read:—
School Committee Rooms, Mason Street,
Office of the Board of Supervisors,
Boston, January 8, 1906.

To the School Committee:—

The Board of Supervisors is in receipt of the following communication from the School Committee, under date of Jan. 1st, 1906:—

ORDERED. That the Board of Supervisors be requested to report to this Board at its next meeting a statement setting forth what reduction in expenses can be effected without detriment to the school system, and if a full report cannot be prepared within the time herein stated, that a partial report be submitted, to be supplemented from week to week until the Board of Supervisors is satisfied that it has fully complied with the terms and spirit of this request.

In reply the Board of Supervisors presents the following report of progress:—

It is the opinion of the Board of Supervisors that reduction of expenditures may be made without detriment to the school system in the following particulars:—

1—By reducing the number of instructors in excess of the number allowed by the regulations in accordance with a report herewith submitted.

2—By reducing expenses connected with manual training in accordance with recommendations of the head of the manual training department, amounting to \$1600.

3—By transferring the office of the Schoolhouse Custodian from its present location to the Rooms of the School Committee, thereby saving a rental, etc., of about \$500.

4—By the dismissal of a second substitute janitor in the office of the Schoolhouse Custodian, thereby saving \$500.

5—By the vacation on March 1st, 1906, of the following rooms now rented by the city, thereby saving an annual expenditure of \$1500:—

Store, No. 727 Walk Hill Street.

Store, No. 1508 Tremont Street.

Store, No. 1516 Tremont Street.

6—By the immediate reduction from \$125 to \$1 of the ground rent for Portable Building on Beech Street, West Roxbury.

Respectfully submitted,

Walter S. Parker,
Chairman, Board of Supervisors.

On motion of Mr. Thomas J. Kenny, laid on the table.

Subsequently, the foregoing communication was taken from the table, and the Board acted thereon as follows:—

On motion of Mr. William S. Kenny, the second and third recommendations were adopted.

On motion of the same member, the Board voted to carry the fourth recommendation into effect by transferring the substitute janitor to the first available vacancy.

On motion of the same member, the fifth and sixth recommendations were referred to the Board of Schoolhouse Commissioners with the request that they carry the same into effect.

The report referred to in the foregoing communication, is as follows:—

TEACHERS IN EXCESS.

The following communication was read:—

In reply to the order of the School Committee, dated Jan. 1, 1906, to wit:—

ORDERED. That the Board of Supervisors be requested to report to this Board at the earliest possible date, and within two weeks, a list of the teachers in the service in excess of the rules established by the former Board, whose continuance in their present positions is deemed essential to the best interests of the schools.

The Board of Supervisors recommends:—

1—The continuation of one extra assistant in the Charlestown High School; one assistant grammar in the Mary Hemenway District; two assistants primary in the Bunker Hill District; one assistant grammar in the Blackinton District. (It is confidently believed that before Sept. 1, 1906, the conditions in the Blackinton District will have so changed as to render an extra assistant needless.)

2-That the School Committee revoke the authorization of one extra assistant grammar in the Robert G. Shaw District; two extra assistants primary in the John A. Andrew District; two extra assistants primary in the Martin District; one extra assistant primary in the Phillips Brooks District; one extra assistant in the East Boston High School. (No teachers are now employed under the above authorization.)

3-On or before Sept. 1, 1906, the discontinuation of one extra assistant in the Roger Wolcott District; one in the Washington Allston District; one in the Warren District; one in the Bowdoin District; one first assistant in the Bunker Hill District.

Note.—A sub-master in the Christopher Gibson District with higher rank than the Regulations allow has been eliminated by a readjustment of the organization of the district.

4-That instructors with higher rank than the Regulations allow be authorized as follows:—

One sub-master in the Bennett District; one in the Lyman District; one in the Mary Hemenway District; one in the Mather District; one in the Phillips Brooks District; one in the Quincy District; one in the Roger Wolcott District; one in the Thomas Gardner District; one first assistant in the Bigelow District (in place of a sub-master to which the school is entitled under the Regulations); one first assistant grammar in the Longfellow District; one first assistant grammar in the Phillips District; two extra first assistants grammar in the Robert G. Shaw District. (It is expected that one of these places will be eliminated by resignation, in accordance with the request of the late Superintendent.)

5-That one extra first assistant primary from the Hancock District and one extra first assistant primary from the Washington District be transferred without loss of rank to corresponding positions whenever such vacancies occur.

6-That one first assistant grammar in the Eliot District be eliminated by a readjustment of the organization of the District.

7-The reduction of ungraded classes in the Washington Allston District from 2 to 0; Washington from 7 to 5; Eliot from 11 to 9; Comins from 2 to 1.

A total reduction of 7 classes.

Summary.

Continuation in Service of

- 1 Extra assistant in High School.
- 2 Extra assistants in Grammar Schools.
- 2 Extra assistants in Primary Schools.

Revocation of Authorization of

- 1 Extra assistant in High School.
- 1 Extra assistant in Grammar School.
- 5 Extra assistants in Primary Schools.

Discontinuation on or Before Sept. 1, 1906, of

- 1 Extra first assistant in Grammar School.
- 4 Extra assistants in Grammar Schools.

Authorization of Higher Rank of

- 8 Sub-masters.
- 5 First assistants Grammar.

Transfer of

- 2 First assistants Primary.

Elimination by Adjustment of

- 1 First assistant Grammar.

By execution of the above recommendations the Board of Supervisors believes that the privilege of annual expenditure for instructors in excess of numbers allowed by Regulations may be reduced by \$8000.

Of the above sum the Board further believes that for the remaining months of the current school year a saving at the rate of \$4000 may be effected.

Attest: Walter S. Parker,
Chairman Bd. of Supervisors.
Laid on the table.

Subsequently, on motion of Mr. Ellis, the second, third, fifth, sixth and seventh recommendations contained in the foregoing communication were taken from the table and successively adopted.

INDUSTRIAL NEEDS OF CHILDREN.

The following communication was read:—

Commonwealth of Massachusetts,
Commission on Industrial and Technical
Education, Room 420, State House,
Boston, Jan. 8, 1906.

To the Boston School Board:—

Dear Sirs: The Commission on Industrial and Technical Education is carrying on an investigation into the industrial needs of the child from 14 to 16 years of age. This investigation would be greatly facilitated if masters and teachers would provide our investigators with the addresses of children who have left or are about to leave school. It is understood that the addresses thus secured shall not be made public in any way. We learn that to obtain such help from the masters, the approval of your board is necessary. We therefore appeal for your assistance in this investigation undertaken by the commission.

Very truly yours,

EXHIBIT OF SCHOOL MATERIAL.

The following communication was read:—
Mr. James J. Storrow, Chairman School Committee, Mason Street, Boston.

Dear Sir: The school material exhibited at St. Louis and at Portland has been returned to Boston and I would like to know what disposition your Committee would wish us to make of it. The teachers and Supervisors think it desirable to have it exhibited in a school hall for a short time, say two weeks, in order that they may see it as a whole.

To install it and to distribute it would cost not far from a hundred dollars. I would suggest that the cabinets which

were furnished by the State have been returned to us for our disposal. I understand some of them are injured; but undoubtedly enough of them are in good condition so that it seems desirable on the part of your Committee the cabinets can be sold for enough to defray the expense of the exhibit. If they are not sold there would probably be a dozen to be distributed among seventy-five schools. As the cases are now placed in a playroom they should, of course, be disposed of as soon as possible. As I had sole charge of the exhibit, I present the matter for your disposal.

Yours respectfully,

M. P. White, Supervisor.

Placed on file.

On motion of Mr. Brock, it was ORDERED That Supervisor White be authorized to conduct an exhibit as suggested by him in the foregoing communication, and to dispose of such cabinets as are not needed and apply the proceeds thereof to defray the expenses of the exhibit.

TRAINED NURSE, WELLS DISTRICT.

On motion, it was ORDERED That permission is hereby granted the Mothers and Fathers Club of Boston to place a trained nurse in the Wells District for the purpose of supplementing the medical inspection of the schools by the Board of Health by personal effort among pupils and parents in matters of sanitation and hygiene. Denver, Colorado, Dec. 27, 1905.

Hon. James J. Storrow, 44 State Street:—
My Dear Mr. Storrow: I thank you for your kind letter of Dec. 21. I should be delighted to meet with the members of the School Board.

My plans are yet a little indefinite. I shall be in and around Boston between the 7th and 16th of February, and I should say that the 9th, 12th or 13th would be days and evenings when I could conveniently be in Boston,—and either of these evenings I think would be agreeable to me.

The Children's Court is with us very much a part of the school system, and I should be very glad to explain to the Board its operation and co-operation with the schools, and the advantages of such an arrangement.

With kindest regards, and with the best wishes of the season, I am

ALTERATIONS AND REPAIRS, MASON STREET BUILDING.

The following communication was received:—

City of Boston,
Law Department, Tremont Building,
January 8, 1906.

The School Committee of the City of Boston:—

Gentlemen: I am requested by you to inform you whether or not in my opinion repairs and alterations upon the building situated on Mason street and occupied by the School Committee should be made by the Board of Schoolhouse Commissioners and the cost thereof charged to the general appropriation for repairs and alterations of school buildings made by the School Committee and expended by the Schoolhouse Commissioners.

I have given some care and thought to the matter because of an opinion given by Mr. Bailey to the Schoolhouse Commissioners, dated October 23, 1902.

The real question is whether the building on Mason street, used at the present time by the School Committee for its meetings and for various school purposes such as the distribution of supplies, etc., is a school building within the meaning of chapters 448 and 473 of the Acts of 1901. Stated in other words, is a school building, a building under the control of the School Committee and used for school purposes, or is the term synonymous with schoolhouse, that is, a place where instruction is actually given to scholars?

In considering this question I have taken into account the history of the building. It was erected in 1846-7 for the Adams School. It was occupied by the Girls' High and Normal School from 1850 to October, 1870, when that school went to its new building on West Newton street. For several years after 1870 the building was occupied in the daytime by overflow classes from the English High and Public Latin schools and in the evening by the Evening High School. The annual report of 1876, in a list of school buildings has this entry, "The Latin Branch on Mason street." The next year, 1877, there appears in the list of school buildings "The School Committee Building on Mason street." Since January, 1877, the School Committee has had its headquarters there. I am informed that there is no record that the School Committee ever surrendered the building or gave it up at any time.

I am of opinion that it is a building used exclusively for school purposes, and could be at any time used as a place where instruction is to be given to scholars, without any change in the statutes or ordinances. I am of opinion, therefore, that it is a school building and as such can be repaired by the Schoolhouse Commissioners out of the twenty-five cents per thousand dollars raised for repairs and alterations of school buildings.

Yours respectfully,
Thomas M. Babson,
Corporation Counsel.

Placed on file, and a copy ordered to be sent to the Board of Schoolhouse Commissioners.

OPINION OF CORPORATION COUNSEL.

The following communication was read:

City of Boston, Law Department,
73 Tremont Street, Boston, Jan. 15, 1906.

Boston School Committee Mason St., Boston:—

Gentlemen:—Yours of the 9th inst., in which you ask my opinion as to whether the city would be liable for any accident or injury that might result to persons attending games or other exercises or entertainments of any description in school buildings to which an admission fee was charged, was duly received. It would have been answered had it not been for many pressing engagements.

In my opinion there would be no liability in the City unless the City itself received some pecuniary benefit or advantage from the admission fee. If all that was done was the granting of permission to a committee of graduates or undergraduates to use the hall without charge, there would be no liability. It would make no difference under those circumstances whether the graduates or pupils charged something for admission or not, the City itself receiving no pecuniary benefit or advantage from such use of the schoolhouse.

Yours respectfully,

Thomas M. Babson,
Corporation Counsel.

Placed on file.

ABANDONING OF QUARTERS HIRED FOR SCHOOL PURPOSES.

The following communication was received:—

City of Boston, Schoolhouse Department,
120 Boylston Street, Jan. 18, 1906.

To the School Committee, Boston Public Schools:—

Gentlemen:—Acting for the Board of Schoolhouse Commissioners, I beg to reply to your communication of January 9 having reference to abandoning certain quarters hired for school purposes, with the view of reducing expenditures.

In regard to the first I would say that we are tenants at will of the store No. 727 Walk Hill St., rented for \$360 per annum, and that the owner will be notified of the vacating of the premises on or before the first day of March next.

In reference to stores Nos. 1508 and 1518 Tremont St., of which we are also tenants at will, and for which we pay a rental of \$600 per annum for each store, I beg to say that the owners will be notified that we will vacate the premises on or before the first day of March.

In regard to the portable building on Beech St., West Roxbury, Longfellow School District, for which a ground rental of \$125 per annum is paid, I would state that the original rate was \$1 per year, and that this rental was paid for two years, as set forth in your communication. Later the attorney for the owner of the land came before the Commissioners and represented that the owner should receive a

sum sufficient to offset the taxes on the property, and \$125 was agreed upon. Upon communicating with the aforesaid attorney to ascertain whether or not that amount could or would be reduced to \$1 per annum, as originally paid, he stated that from the communication he had received from the owner, no statement was made favoring this reduction.

I desire to say further that no communication has been received from your Board as to where these classes are to be located if the above premises are given up.

We have received a letter from Mr. George, Principal of the Roger Wolcott School, stating that the class located in the Walk Hill St. building would be taken into the Tileston School building, but we have no record of any communication in regard to locating the classes in manual training and kindergarten which occupy the Tremont St. stores. It is essential that we should be notified before the rental of the above premises ceases; where these classes are to be located, if such is the intention, or whether the outfit therein is to be stored. Will you please give this matter your consideration? By so doing you will oblige,

Yours very respectfully,

H. B. Fisher, Secretary.

Referred to the Board of Supervisors for consideration and report.

PROTECTION OF SCHOOL BUILDINGS AGAINST FIRE.

The following communication was received:—

City of Boston, Schoolhouse Department,
120 Boylston St., Jan. 19, 1906.

To the School Committee:—

Gentlemen:—I beg to acknowledge your communication of Jan. 17, enclosing the report of the District Chiefs of the Fire Department.

The matters referred to in this report have, as you are aware, been previously brought to the attention of this Board and for the past four years the Board have been steadily taking up the most urgent cases and attending to these as rapidly as the funds at their disposal would permit. Each year in their Annual Report the Board have stated what has been done. In 1901 the Board's first step was to put in fire extinguishers. In 1902 they erected two fire escapes and put in the Auxiliary Fire Alarm system in seven schools. In 1903

eighteen schools were equipped with fire escapes, and in 1904 seven schools were equipped with fire escapes, eight schools were equipped with the Auxiliary Fire Alarm system, thirty schools had the outside doors changed to open out and fire extinguishers were installed in a very large number of the older schools. In these four years the Board spent \$46,044.63 on fire protection.

In the report of 1904 the Board of Schoolhouse Commissioners reported the result of interviews that they had held with Fire Commissioner Russell and with the District Chiefs, from which it appeared that the Board held an opinion differing from the Chiefs in regard to the reason for putting on fire escapes. The Board had supposed that the fire escapes were intended primarily for the children to use in case of danger, and, with this in mind, had thought that the spiral fire escape, known as the Kiker-Bender, was the safest means of taking children out from a burning building. Commissioner Russell and his Chiefs pointed out that in their opinion the danger of fire in a school building when it was in session was extremely small, owing to the fact that the building was full of people, all of whom were awake. Under these circumstances it seemed almost impossible that a fire, even if started, should gain any headway whatsoever. In case of an alarm and danger, or even the appearance of danger, such as might be caused by a volume of smoke, Commissioner Russell stated that the stairways, the regular means of exit, should always be used up to the last moment that they were available, and that never, except in cases of extreme emergency, and then only under the direction of the Fire Chiefs, should outside fire escapes be used by children.

For this reason the Fire Commissioner advised that the outside fire escapes should be in the form of staircases, which could be used by the firemen to take their hose up on the outside of the building.

The Board of Schoolhouse Commissioners accepted the advice of the Fire Commissioner as being eminently wise and practical and have since then installed that form of fire escape which the Fire Commissioner approved, and have also, with the advice and approval of the Commissioner, proceeded to take up and complete as rapidly as funds would permit, the fire-proofing of the basements of the old schools, particularly that portion which adjoins either furnaces or boilers.

By the Act establishing this Board (Chapter 473 of the Acts of 1901) authority was given to employ a portion of the proceeds of the loans for fire protection and during these four years money was set aside from the loans for this purpose. In 1906 all the expenses in connection with fire protection will have to be taken from the general fund for repairs. It is to be borne in mind that since 1901 no increase has been made in the appropriation for repairs except such as comes from the increased taxation value of the city, but during these four years the Board have erected new buildings to the extent of over four millions, on all of which repair is necessary to keep them up to the standard, and that by the Act of the Legislature, May 25, 1904, the expense of this Department was charged against the repair fund, adding \$25,000 to the fixed charges per annum, and that consequently the Board will be unable to take up as rapidly as they would wish the more complete fire protection of the older buildings.

Short of complete rebuilding, it is impossible to make the old second-class buildings really safe, and the Board believe that it is a greater protection to the children to have the heating apparatus carefully safeguarded, so as to prevent the spread of fire from the basement to the upper portion of the building, than it is to erect fire escapes, but as fast as their funds permit they propose to carry out

both of these methods intended to add to the safety of the children who are necessarily housed in the older buildings. I am

Respectfully yours,
R. Clipston Sturgis, Chairman.

P. S.—The Board have not as yet had an opportunity of a conference with Fire Commissioner Wells and his District Chiefs, but believe him to be substantially in accord with the position taken by the late Commissioner Russell.

Placed on file.

PROTECTION OF SCHOOL BUILDINGS AGAINST FIRE.

The following communication was received:

City of Boston,
Schoolhouse Department,
120 Boylston st., Jan. 27, 1906.

Mr. T. D. Apollonio, Secretary, School Committee:

Dear Sir: I notice among the reports from the Boston Fire Department in reference to an examination of school buildings, as to their opportunities for egress in case of fire or panic, that the District Chief recommends in the Thomas Gardner School that a push button be placed in each corridor in order that the fire drill signal may be given from each floor.

I would say in reply that the arrangements of all the school buildings are such that the fire gong is rung from the master's office in all cases, and the Board of Schoolhouse Commissioners do not deem it necessary to provide the aforesaid button in each corridor, as suggested by the District Chief.

I also notice a communication signed by W. Childs, District Chief, in which he calls our attention to a list of buildings, some 26 in number, that are supplied with fire extinguishers and suggests that charges be furnished the extinguishers when needed. I would say that it has always been our custom to keep these aforesaid charges on hand, and when required they are sent to the schools, and the janitors of the buildings are instructed how to apply them. I am

Respectfully yours,

H. B. Fisher, Secretary.

OPINION OF CORPORATION COUNSEL.

The following communication was received:—

City of Boston, Law Department,
3 Tremont Street, Boston, Feb. 9, 1906.

The School Committee of the City of Boston:—

Gentlemen: In reference to your inquiry as to whether the City would incur liability for injury sustained by a person while attending exhibitions or dances given in a school building if the City should charge a small fee for the use of the school hall, I would say that the rule is that no private action, unless authorized by express statute, can be maintained against a city for the neglect of a public duty imposed upon it by law for the benefit of the public and from the performance of which the corporation receives no profit or advantage.

The leading case in Massachusetts on this subject is the case of *Hill v. Boston*, 122 Mass. 344. In that case it was decided that a child attending a public school in a school-house provided by a city could not maintain an action against the city for an injury suffered by reason of the unsafe condition of a staircase in the school-house over which he was passing. The reason given by the court for this rule is that the city in maintaining school-houses, cemeteries, commons, etc., is performing a public duty and gets no compensation for it and therefore does not benefit in its corporate capacity.

In the case of *Oliver v. Worcester*, 102 Mass. 489, the City of Worcester had its city hall on the old common near Main street. It rented in the basement of the city hall a store or stores. A person passing over a portion of the common which was a way to both the city hall and to the stores under it was injured by a defect, and the court held that as the city was getting rent for the store or stores it was liable to the traveler because it did not keep the way in repair, although the traveler was going to neither the store nor the city hall.

If the City was getting a substantial income out of a school-house it would undoubtedly be liable for a defect or want of repair in it. If it derived no income it would not be liable. If it derived a small income it might or might not be liable. The chances are that a small fee would not make the City liable, particularly if it

was only enough to cover the expense of lighting, heating and janitor service for the night, so that no profit was made. I should be afraid to charge a sum which would exceed the actual cost of opening the hall at night.

Yours truly,
Thomas M. Babson,
Corporation Counsel.

SELECTION OF CLASS PHOTOGRAPHERS, HIGH SCHOOLS, ETC.

The following communication was received from the Acting Superintendent, under date of Feb. 12, 1906:—

In response to your order, passed on Jan. 22, 1906, "That the Acting Superintendent be requested to investigate the manner in which class photographers are selected, class pins purchased, and athletic meets and officers' parties conducted in high schools, and to report the facts to the Board with such recommendations relating to these matters as he may deem expedient," I have respectfully to report:—

I have sent a communication to all the Head Masters, asking an account of their proceedings in such matters in their schools, and they have all replied quite fully explaining their methods which agree to a very large extent in treatment. Most of them have exerted a certain amount of personal influence; and in almost every case a committee of the class has been chosen to carry on this work for the schools in connection with procuring bids from different firms in regard to photographs, pins, &c. The masters have differed somewhat in the amount of personal influence which they have endeavored to exercise, but they all substantially agree in the general method.

I would, therefore, make the following specific recommendations: I believe that these matters should be left entirely in the hands of the Head Masters and that they should be held directly responsible for the work being done in the proper way.

I would suggest that it seems to me that here is a good opportunity to teach these young men and women in the high schools that the citizen will often be called upon to do work for the general good without any compensation; and that here is a splendid opportunity to instruct them in the idea of working when they do not receive any monetary return. The Head Masters should be expected to work up a healthy sentiment in their schools to the end that these pupils will be willing to serve the class in any of these ordinary capacities without expecting any return either from the class or from the firms with which they deal.

Personally, I know of no better opportunity for a young person to begin to perform these specific acts which every good citizen is not only liable, but is also willing to perform for the public good without any pay. I would, therefore, recommend that even the ordinary procedure, which has been customary in many of the schools, for the committee to receive their own photographs free, be discontinued, and that this be presented in such a way that the pupils themselves will see the wisdom of this higher and better plan for doing their work.

In regard to athletic games and officers' parties, which are conducted by the members of the school, I would state that I am very strongly of the opinion that the Head Masters should be held directly accountable for the proper conduct of the pupils on all occasions when they meet together as members of the school at any of these public functions. It seems to me that a strong sentiment should be worked up so that at all of these meetings nothing may happen in any way which will bring discredit upon the good name of the school. Furthermore, I believe that in athletic games a strong feeling should exist among the members of the different schools to the end that a high moral sentiment should control these teams in endeavoring not necessarily to win, but always to play fair and square; that the end in view should be, both for pupils and teachers, to conduct all of these exercises in such a way that all the pupils will receive good moral and physical training in taking part in them. It would be better to cultivate the idea of bearing defeat bravely than to gain a victory unmanfully.

I would add that if the Head Master is to be held responsible he should be given authority to enforce proper regulations.

Walter S. Parker.

Acting-Superintendent of Public Schools.

On motion of Mr. Thomas J. Kenny, laid on the table.

SELECTION OF CLASS PHOTOGRAPHERS, HIGH SCHOOLS, ETC.

The following communications were received:

In the spring or early summer of 1905, at a regular meeting of the Lens and Brush Club of Boston, an organization composed of many representative Professional and Amateur Photographers of Boston and suburbs, after various discussion pertinent to the matter, these resolutions were offered and passed:

RESOLVED, That this club take cognizance of, and deplore the unenviable notoriety and publicity given to the Photographers of Boston as a class, by the differences which have arisen between one of our well known Boston Photographers, and a highly respected High School Master, also of Boston, which had finally to be settled by the courts.

Be it further

RESOLVED, That it is the sentiment of this club, that whereas we represent only a portion of the photographers of this city, yet we thoroughly believe that all of our representative men utterly repudiate the spirit and intent of bribery in their business relations with the students of our public as well as private schools or that it is the wish or desire of any of them that this be done by any of our employees, or other interested parties.

Be it further

RESOLVED, That we petition the Honorable School Board of the City of Boston to request the masters of the various High and Grammar Schools, to instruct and direct all committees appointed on photographs, not to receive or consider bids from any photographers which shall savor of bribery or corruption.

Be it finally

RESOLVED, That the chair appoint a committee who will act in this matter as may appear most advisable for all interests concerned, and in the spirit of these resolutions.

The Chair appointed:

Charles Wesley Hearn, Chairman.
William H. Partridge.
H. G. Dunham.

To the School Committee of the City of Boston:—

We, the undersigned, photographers of Boston, feel it necessary for our good name not to let the recent allegations of "photographic graft" spread broadcast in the newspapers, pass unnoticed.

We wish to place ourselves and our calling upon record as entirely against countenancing graft, rake-offs or commissions under any guise whatsoever in the effort to obtain contracts for photographs in the public schools. We do not and will not permit anything of the kind by principals, employees, agents or solicitors.

We have too much appreciation of the many favors done us in the past by masters and teachers to wish their work made any harder for them. We have too high an idea of the importance of the public schools and of the maintenance of high standards in them to tolerate any over-zealous or questionable business methods in dealing with scholars. We feel, however, sensible of the rights of all to transact business with the least possible restriction. And as we desire the privilege of dealing with prospective customers in the schools we believe that all possibility of friction will be avoided in the future if the school committee will strike an appropriate note of warning at the present time.

We therefore respectfully suggest and petition your committee to pass an order directing the masters of the public schools to give proper advice to all photographic committees of scholars to avoid becoming entangled in any possible charges through personal considerations; and that all mas-

ters while permitting the class committee on photographs, or the classes themselves, to exercise their freedom of selection, the master should also become conversant with the nature of all such contracts, together with all individual offers,—if any that may be made to the committees before said contract is signed.

We believe a thorough knowledge on the part of the masters, of all the details attending these contracts would very speedily result in so improving the situation that the allegations of graft will have no existence in connection with photographic work in our public schools.

Respectfully submitted,
Charles Wesley Hearn
and thirteen others.

Kenny, the report of the Acting Superintendent, received at the meeting of Feb. 12, relative to the manner in which class photographers are selected, class pins purchased, and athletic meets and officers' parties conducted in high schools, and containing specific recommendations relating thereto, was taken from the table, the recommendations in said communication adopted, and the Acting Superintendent instructed to issue a circular to the head-masters of high schools embodying the same and notifying them of the action of the Board.

ELECTION OF SUPERINTENDENT.

On motion of Mr. Brock, the Board proceeded to the election of a superintendent of public schools.

Mr. Thomas J. Kenny submitted the following statement:—

One of the most important duties that the School Committee of Boston will have to perform during the year is the selection of a Superintendent of Schools.

Since the sudden death of our late lamented Superintendent, George H. Conley, in December, this Committee has had before it as a duty soon to be fulfilled, the responsibility of finding the right man for this most important position.

I feel that in justice to the schools, the community and ourselves, there should be a full discussion of this matter and that it is clearly our duty to give our reasons for our action here tonight.

After a thorough investigation of the merits of the respective candidates for Superintendent of Schools and bringing to the task my best judgment after a service of six years, on the School Committee, I unhesitatingly and confidently announce as my choice for this position, Supervisor J. E. Burke, and for him I shall vote here tonight.

I am firmly of the opinion that by temperament, training and conspicuous ability Mr. Burke is the best man to fill this important post in our great cosmopolitan city.

I should always prefer, other things being equal, to have for Superintendent, a man who has been trained as scholar and teacher in the schools of New England, one who is and has been in closest touch with the best traditions of the schools here, whose knowledge and experience have been gained under the best teachers and masters here in New England.

We should have a man for Superintendent who knows school work not only in part but in its entirety, from kindergarten to college; one who is familiar from his experience with the large administrative problems of the whole school system.

Our Superintendent should be a man whose experience has been broad, whose career has been a successful training for this high position; a man whose personality is strong and whose ability is publicly acknowledged to be of a high order. Such a man I believe Mr. Burke to be.

Mr. Burke's professional career is open to closest scrutiny. One has not far to travel to learn for himself by observation of results accomplished, what manner of man he is, what his success has been in this very work of superintendency.

Graduating from Colby College, in 1890 Mr. Burke soon became Superintendent of Schools in his college town, Waterville,

Maine. Thence he was called after two successful years, to our own State, to the City of Marlborough. Here he undertook and accomplished a complete change in the school system and the plans and policy then outlined and started by him have since been pursued with most gratifying results.

We next find him at the head of one of the largest school systems in the State, in the City of Lawrence, where for ten years he labored most assiduously, bringing about many radical reforms, notable among these was the reducing of the elementary school period from 9 to 8 years, and in this he was in advance of most of the cities of the state. An evening high school was established which had a complete course prescribed and where a regular high school education was given. A Normal School was maintained with a corps of critic-teachers and attended by pupil-teachers in training. Under Mr. Burke's administration this school was incorporated as a part of the Lowell State Normal School, and the plan inaugurated stands unique as a departure in the training of public school teachers. The entire school system was harmonized; a spirit of unity was promoted among the teachers throughout that city and when Mr. Burke resigned from Lawrence to come to Boston, he left a magnificent school system, second to none in our entire State.

As I have said, these results have been attained by Mr. Burke near at hand, where investigation can be made easily and under conditions that have attracted the most favorable comment from educators who knew his task and have seen the results.

For two years past Mr. Burke has been filling the position of Supervisor in Boston. Here again his course has been marked by originality and progressive ideas. Going about from school to school in his districts, in constant communication with masters and teachers Mr. Burke has been able by reason of his years of experience to do the work of supervision and direction to the entire satisfaction of all concerned. To promote a closer spirit of harmony, he has held frequent conferences with his teachers and a strong spirit of co-operation which educators are so anxious to secure has thus been created.

If you would know of his work in Boston, ask the teachers in Boston, talk with the parents of the school children who have sought his advice, consider carefully the morale, and the discipline of his schools as well as the results attained, and I feel that the verdict must be that Mr. Burke is just the man for Superintendent of Boston's schools.

Like my associates on this Board, I am not an educator by profession, but I bring to my duties as school-committeeman my best judgment. Facts are hard things to overcome: Waterville, Marlborough, Lawrence and Boston tell the story! Results speak for themselves!

It is a matter of pride to me to know that my judgment of Mr. Burke's fitness for this position is endorsed by many educators—men skilled in school-work and men who know Mr. Burke's successful record.

Among others the following prominent educators have given Mr. Burke their endorsement for the position of Superintendent of Boston's schools:—

W. W. Stetson, State Superintendent of Schools of Maine, and President of the National Association of School Superintendents;

Rev. Dr. Charles L. White, President of Colby College;

Dr. Albion W. Small, Dean of the Department of Sociology, Chicago University;

Dr. Nathaniel Butler, Professor in Chicago University;

Dr. Shaller Matthews, Dean of the Divinity School, Chicago University;

Frank F. Coburn, Principal Lowell State Normal School;

J. Ashbury Pitman, Principal Salem State Normal School;
 Bernard M. Sheridan, Superintendent of Schools of Lawrence;
 William C. Bates, Superintendent of Schools of Cambridge;
 Stanley H. Holmes, Superintendent of Schools of Haverhill;
 William H. Brownson, Superintendent of Schools of Portland, Maine.
 I respectfully submit this report as a part of the records of this meeting.

Mr. Storrow presented the following statement:

I appreciate most keenly the grave responsibility which has rested upon us as members of the School Committee, in selecting a superintendent.

We have taken plenty of time, have looked over the entire country, and have considered numerous men, several of whom possess many qualifications for the position.

The people of Boston have for many years shown their desire to have the best schools possible by cheerfully providing a sum of money per pupil in excess of that expended in any other city in the country, with the single exception of the city of New York.

In considering our problem of selecting a superintendent, I have assumed that the citizens wanted at the head of the system the very best man we could find in the United States, and did not want us, because of the locality argument or for any other reason, to take a less good man if anywhere we could find a better.

I have exercised my most careful judgment, and am thoroughly convinced that the best man in the United States for up-building the Boston school system is Stratton D. Brooks. In my opinion, if the citizens of Boston will give him their confidence and support, he will, in the course of a few years, with the able assistance of the supervisors and other officers of our school system, advance our school system to a degree of efficiency and effectiveness which will cause those charged with teaching or school administration to come from all over the country to Boston, to study our system and methods—which certainly is not the case to-day.

Mr. Brooks is in his thirty-seventh year, and though the years of his manhood have not been many, he has pursued the study of his profession with a determination and thoroughness entirely unequalled by any other candidate whose name has come up for consideration; and, in fact, so far as I am aware, there is no man of his years in the United States with an equal record.

Though endowed with great natural ability, he has not been tempted to rely simply on this, but during every year of his career has striven, by constant study and training, to still further improve his professional efficiency. A glance at the list of courses which he has taken to train himself for the work of school administration reveals the intensity with which he has toiled to increase his efficiency.

From 1887 to 1889, he took a two years' course at the Michigan State Normal College.

In 1889-1892, a three year post graduate course at the Michigan State Normal College, receiving the degree of Bachelor of Pedagogy.

In 1896, graduated from the University of Michigan, receiving the degree of Bachelor of Arts.

In 1889, received the degree of Master of Pedagogy from the Michigan State Normal College.

In 1894, he received the advanced degree of Master of Arts from Harvard University, for studies in the field of pedagogy.

During all the period that Mr. Brooks has been thus studying theoretically the whole

field of education, he has been further strengthening his equipment for his life work by teaching or managing schools.

He began with the kindergarten, at the bottom of the ladder, and has passed up through the grammar schools, thence to the high school and beyond, to the university, where he became the head of the Department of Pedagogy. There is no class or grade of public schools which he has not studied theoretically, and in which he has not had practical, day after day, experience. Besides his early work in grammar and high schools, for three years, he had under his supervision preparatory schools, in the state of Illinois. For three years, he was professor of education in the University of Illinois, and for nearly four years he was supervisor of schools in Boston. By the marked ability with which he has filled all these positions, he has won swift promotion, and has gained the respect of all who have come in contact with him.

The School Board of Cleveland, which has the reputation of being one of the best and most progressive in the country, undertook recently the task of selecting a superintendent for that city; Mr. Brooks was, I believe, an entire stranger to them. They made a most careful search for the very best man obtainable, extending over some months and covering the entire country. I know the members of that board made repeated visits to Boston, investigated carefully Mr. Brooks' standing among his associates and subordinates in the Boston school system and carefully looked into his professional record here and elsewhere. The result of their survey of the whole field was that they unanimously reached the conclusion that Stratton D. Brooks was the best man in the country to make superintendent of schools in Cleveland.

It seems to me that the keynote of Mr. Brooks' professional career may be said to be a just appreciation of the value of the best and most extended professional training combined with practical training at every point in the entire field of education. He is a man who cannot be said to have anything less than a genius for hard work. He is a Democrat in his political beliefs and thoroughly approachable and democratic in his manners. No man has ever come into contact with Mr. Brooks who does not realize that he has courage and high character. If I did not feel able to guarantee that he is absolutely free from bias, I should not vote for him. He has the breadth of view which can only come to a man who has pursued his professional studies in both eastern and western universities, and who has gained his practical experience in widely separated parts of the country.

The Chairman instructed the Secretary to call the roll, and the members as their names were called respectively stated that they voted as follows:—

For Stratton D. Brooks—Messrs. Brock, Ellis and Storrow—3.

For Jeremiah E. Burke—Messrs. Thomas J. Kenny and William S. Kenny—2.

The Chair declared Stratton D. Brooks elected as Superintendent of Schools.

Mr. Thomas J. Kenny moved that the election be declared unanimous, stating that he made this motion on behalf of Mr. Burke and at Mr. Burke's suggestion.

Mr. Kenny's motion passed.

HIGH SCHOOL DIPLOMAS.

The following communication was received:—

School Committee Rooms, Mason Street,
Office of the Board of Supervisors,
Boston, March 30, 1906.

To the School Committee:—

The Board of Supervisors is of the opinion that it would be of great advantage to the high schools to award diplomas only to those pupils who have completed the full course of four years in the Mechanic Arts High School and to those pupils who have won seventy-six points, which usually requires four years, in the other high schools. The regulations already provide (Sect. 271) that pupils who have satisfactorily completed a part of the authorized course of study may receive certificates of proficiency in the various subjects of the course, and these certificates may with advantage be substituted for the diplomas now granted on the completion of the present three years' course.

The Board of Supervisors therefore submits the following recommendations:—

(1) That the course of study for the Mechanic Arts High School be amended by striking out lines nine and ten on page 4, and substituting in place thereof the following: Diplomas are awarded at the end of the course of four years.

(2) That the course of study for high schools be amended by striking out paragraph (5) on page 7, and inserting in place thereof the following: A diploma is awarded to pupils who have won seventy-six points, which usually requires four years' attendance.

(3) That the regulations be amended as follows:—

Sect. 266. Strike out the section, and substitute in place thereof the following:—

Sect. 266. The course of study for the high schools shall be for four years, and shall be arranged by the Superintendent and approved by the Board.

Sect. 272. Strike out the section and substitute in place thereof the following:

Sect. 272. Diplomas shall be awarded to pupils satisfactorily completing the course of study, provided, that those pupils who

have entered these schools prior to September, 1906, may, if they choose, be awarded a first diploma when they have completed a three-year course or its equivalent. Respectfully submitted,

Stratton D. Brooks,

Chairman, Board of Supervisors.

On motion of Mr. William S. Kenny, laid on the table.

Placed on file, and on motion of Mr. Brock, the Schoolhouse Custodian was authorized to make the desired experiment with the consent of the Master of the District.

JANITORSHIPS, LYMAN AND OLD MATHER SCHOOL-HOUSES.

ANNUAL APPROPRIATION.

The following communication was received:—

SCHOOLS.

Appropriation, 1906-1907.

To the School Committee:—

The undersigned would state that the Board of Assessors has certified that the average taxable valuation of the City on which the sum allowed the schools is based, amounts to \$1,229,429.222. The School Committee can appropriate \$3.40 on each thousand dollars of this valuation, which amounts to \$4,180,069.35. An additional sum of \$55,912.34 (derived from the Estimated Income for 1906-07, \$51,012.65.—Excess of Income over Estimates, \$4330.04.—and the Balance Unexpended for 1905-06, \$69.65) can also be appropriated, making a total of \$4,235,971.69, which is the limit allowed. Of this sum, \$491,771.69 can be appropriated only for the purchase of lands and additions to school-yards and the erection and furnishing of new school buildings. By a recent Act of the Legislature, the School Committee is relieved from appropriating the full amount heretofore allowed for Repairs, etc., but may reduce the amount for the year 1906 in the sum of \$60,000, which amount may be appropriated for the support of the Public Schools in addition to the amount hereinbefore authorized. The remainder of the proceeds of said twenty-five cents upon each one thousand dollars of the valuation, to be appropriated for Repairs and Alterations of School Buildings. The appropriation, as recommended, is based upon the following:—

\$3 per thousand on \$1,229,429.222 equals	\$3,688,287.66
Unexpended balance, 1905-06	69.65
Excess of income over the amount estimated, 1905-06	4,830.04
Estimated income for 1906-07	51,012.65
Total	\$3,744,200.00

It is estimated that to carry on the schools, as they exist at present, will require \$6200 more than the amount allowed by law.

The money available under the charge of the School Committee, will permit an increase in expenses over the past year, of \$139,871.62, which must not only take care of the natural increase but must, in addition, take care of a deficit left the present School Board by its predecessor, amounting to about \$54,000.

In accordance with these statements and in compliance with Section 1, Chapter 448 of the Acts of 1901 (or Acts in addition thereto or amendments thereof) the passage of the accompanying order is recommended. Respectfully submitted,

William J. Porter,
Auditing Clerk.

To the School Committee:—

I transmit herewith a communication received by me from the Trustees of The Boston City Hospital, saying that they wish to obtain the old Webb School-house property on Porter Street as a site for the Emergency Hospital in East Boston, and expressing the willingness of the Trustees to pay thirty cents per square foot for the land.

Under a recent Act of the Legislature (Chapter 259 of the Acts of the present year), the first step to be taken, if this offer is to be accepted, is the passage of a vote by your Committee stating that in your opinion it is advisable to sell this property. I recommend that this vote be passed, in order that the Commission authorized by the Act may be empowered to sell and convey the property to the Hospital Trustees.

Yours respectfully,
John F. Fitzgerald, Mayor.

Letter, Hospital Dept., enclosed.

Accompanying the foregoing was a communication from A. Shuman, President of the Trustees of the City Hospital, addressed to the Mayor, under date of May 8, 1906.

Placed on file.

COMMUNICATION FROM PARK COMMISSIONERS; VIOLATION OF PARK REGULATIONS.

The following communication was received:—

City of Boston,
Board of Commissioners of the Department of Parks,

Boston, May 9, 1906.

School Board of the City of Boston, Mason street, Boston:—

Gentlemen: The pernicious practice of picking flowers in the Parks, I am sorry to say, seems to be on the increase. In addition to the injury to the public in the loss of the flowers, the children injure the plants by trampling on them, and often afterward violate another Park regulation by offering the flowers for sale in the Park limits.

It would seem to the Board that a word from the school teachers to the children would be a great benefit. This would seem all the more desirable, because we are told that some of the teachers are not aware that the picking of flowers in the Parks is not only an injury to the public, but is forbidden by law.

Yours very truly,

Charles H. Stratton,
Chairman.

On motion of Mr. Brock, referred to the Superintendent for such action as he may deem wise.

VII—That the selection of lecturers who shall be experts in mercantile lines to give lectures or conduct courses on special topics be left to the principal of the school and the superintendent, subject to the provision that the expenditure for lectures in one year shall not exceed the maximum salary of a Master. Such lecturers shall not be required to hold teachers' certificates.

This plan of organization differs from that of the English High School in the following respects:—

- 1—Establishment of heads of departments.
- 2—Junior Masters do not become masters when they reach the maximum salary of their rank.
- 3—Teachers of lower rank than junior masters are provided for; this provision together with a different salary schedule will reduce the cost per pupil for instruction.
- 4—Employment of lecturers.

Course of Study.

It is not advisable to establish a complete course of study at this time. It is recommended that during the coming year such work in each department be offered as the principal recommends and the Board of Supervisors approves.

In order to carry this organization into effect, I recommend the passage of the accompanying orders.

Stratton D. Brooks,
 Superintendent of Public Schools.

The orders referred to in the foregoing communication are as follows:—

ORDERED. That the Regulations be amended by inserting in Chapter XII. the following section:—

OPINION OF CORPORATION COUNSEL, PAYMENT OF LEGAL EXPENSES INCURRED BY CHARLES M. CLAY AND GEORGE C. MANN.

The following communication was received:

City of Boston, Law Department,
73 Tremont street, Boston.
May 12, 1906.

The School Committee of the City of Boston.

Gentlemen: Yours of April 17 in regard to an application of Messrs. Charles M. Clay and George C. Mann for reimbursement of expenses incurred by them in defending claims brought against them in connection with the selection of a class photographer was received and would have been answered before but for my many pressing engagements before the Legislature.

Cities and towns can vote to reimburse their officers or agents for moneys paid out for the defense of suits brought against them while in the performance of their official duties. The powers of school committees of cities and towns generally are more limited than the powers of town meetings and of city councils. Chapter

400 of the Acts of the year 1896, however, which was re-enacted with some changes in chapter 170 of the Acts of 1903, provides that the Boston School committee may make such appropriations as it deems necessary, and its votes making appropriations have the same force and effect as orders of the city council.

In my opinion, therefore, your board has the power to pass an order making the reimbursement in question.

In these particular cases, the amount appropriated being for the purpose of paying lawyers' bills contracted by the petitioners, some care ought to be taken that it may not establish a dangerous precedent. Under the ordinance the school committee could have called upon this department to have taken up the defense of these suits. A petitioner ought to show to the satisfaction of your board that there existed an absolute necessity for the employment of private counsel and some good reason why he did not obtain a vote of the school committee requesting this department to appear.

Yours respectfully,
Thomas M. Babson,
Corporation Counsel.

Placed on file.

DISCONTINUANCE OF SEPARATE EL- EMENTARY SCHOOLS FOR BOYS AND GIRLS.

Mr. Brock presented the following peti-
tion:—
To the School Committee of the City of
Boston:—

The undersigned, members of the teach-
ing force in "Boys' Schools," respectfully
request you to consider the advisability
of doing away with separate schools for
boys and girls in Boston.

We believe that separate schools are un-
fair to both boys and girls.

We believe that separate schools make
discipline more difficult and tend to in-
crease corporal punishment.

We believe that separate schools are un-
just to the teachers both as to discipline
and the amount of work required.

We believe that our work is unjustly
compared with the work of teachers of
even grade in girls' and mixed schools.

We believe that the mixing of one or two
districts could be undertaken each year
without great expense to the city.

We request that you grant a committee
of our number a hearing on this matter.

Amos M. Leonard,
and one hundred nine others.

On motion of Mr. Brock, laid over to the
next meeting of the Board, and the Secre-
tary directed to inform the petitioners that
they will then be given a hearing thereon.

On motion of Mr. Ellis, it was
ORDERED, That there be allowed and

COURSE OF STUDY, EVENING HIGH SCHOOLS.

The following communication was received:—

Boston Public Schools,
Superintendent's Office,
Mason street, May 28, 1906.

To the School Committee:—

After conference with the Board of Supervisors and the Principals of the Evening High Schools, it seems evident that the changes specified below would be beneficial to these schools:—

1. Definite directions should be issued to the principals for the purpose of establishing a uniform method of counting attendance.
2. Records of points won by each pupil should be kept in the school he attends and suitable cards for these reports should be provided.
3. Candidates for diplomas should be reported to the Board of Supervisors on suitable blanks.
4. Special instructors of music and physical training should be appointed and the pupils enrolled in these classes should not be counted in the number necessary to authorize the employment of regular instructors.
5. The regulations should be so amended as to avoid the discontinuance of classes when there are still a number of earnest pupils wishing to continue the subject.
6. The course of study should be amended to the end that the number of pupils taking regular and progressive courses shall be increased and a greater number of pupils be encouraged to receive diplomas.

I, therefore, submit a revised course of study for Evening High Schools and recommend the passage of the accompanying orders.

Stratton D. Brooks,
Superintendent of Public Schools.
Placed on file.

The orders referred to in the foregoing communication are as follows:—

ORDERED, That the regulations be amended by striking out section 155 and substituting therefor the following:—

SECTION 155: Besides the principal, each evening high school shall be allowed one assistant for every twenty-five pupils, and an additional teacher for an excess of twenty pupils and such assistants to teach physical training and music as the Board shall authorize; provided, however, that such special teachers shall not be included in the complement of teachers to which any school may be entitled under the regulations, nor shall the pupils enrolled in such special classes be counted in making up the number of pupils necessary to authorize the employment of any teacher. Assistants shall be dismissed at the close of any month in which the average attendance shall have fallen below the number authorizing their employment; provided, however, that if there shall be but one class in any subject, that class shall be continued until the close of the term or until the number of pupils in attendance shall fall below ten.

Besides the principal, each evening elementary school shall be allowed one assistant for every twenty pupils, and an additional teacher for an excess of fifteen pupils. In schools of less than seventy-five pupils the principal shall be included in the complement of teachers as hereinbefore specified. In schools of one hundred pupils or more one male first assistant may be appointed. Assistants shall be dismissed at the close of any month in which the average attendance shall have fallen below the number authorizing their employment.

No principal or female teacher of a public day school in Boston shall be employed in the evening schools; provided, however, that any female teacher employed in an evening school who is appointed to a permanent position in a day school, may, in the discretion of the Superintendent, continue such evening service until the close of the term for which she has been appointed, but no longer.

The employment of men day school teachers in evening schools, except as principals thereof, shall not exceed three years in any period of five years; provided, however, that this limitation shall not apply to evening school service rendered previous to Sept. 1, 1904.

ORDERED, That the Course of Study for Evening High Schools, submitted by the Superintendent, is hereby adopted and all conflicting orders or adoptions are hereby revoked.

ORDERED, That two thousand (2000) copies of the Course of Study of the Evening High Schools be printed.

On motion of Mr. Ellis, the three orders immediately preceding were laid on the table.

REDUCED NUMBERS IN KINDERGARTEN CLASSES.

A communication was received from the Superintendent, under date of May 23, 1906, in response to the order passed by the Board at its meeting of Jan. 18, requesting information as to the best method of dealing with kindergarten classes when much reduced in numbers, stating that after consultation with the Director of Kindergartens and the Board of Supervisors, he is of the opinion that provision looking toward the economical administration of kindergartens should be made as follows:

1. The number of assistants appointed on probation should be below that authorized by the highest attendance.
2. When there is an increase of pupils, a special assistant should be appointed in place of a regular assistant and retained until such time as this increase shall have been found to be permanent.

3. In cases where there are two kindergartens in the same building, but one principal should be appointed.
4. The appointment of maids should be materially reduced. It is, however, not advisable to discontinue them entirely; their appointment should be left discretionary with the Superintendent.
5. Greater ease in transferring assistants from one kindergarten to another should be provided. For that purpose and on account of the desirability of other cases of transfer, it is recommended that when the rules are adopted, the following paragraph be included:—

The Superintendent may transfer principals and other instructors whenever in his opinion the good of the service requires, provided the transfer shall be to a position of the same rank and salary. Such transfers shall be reported to the Board at its next regular meeting.

Placed on file.

REFERENCE LIBRARY FOR TEACHERS.

A communication was received from the Board of Supervisors, under date of May 23, 1906, in response to the order passed by the Board at its meeting of May 7, with reference to the establishment of a reference library for the use of teachers, in part as follows:—

The Board considers that it is advisable to establish a reference library in the Mason-street building for the use of teachers, and suggests that the library contain some books on pedagogy, psychology, child study, etc.; that it also contain books sent by publishers for examination, in those cases where the Supervisor desires to get the opinion of teachers.

The Board further suggests that the library be placed in the private offices of the Board of Supervisors, and that it be open to teachers on Saturdays.

If publishers would send to this library the high school publications, and the high school teachers could examine the books here, it would free the teachers from the annoyance of book agents, it would free the publishers from expensive distribution of books, it would secure for the books a more careful and just estimate, and give the Supervisors valuable information which would help them in deciding on books for the authorized list.

The Board of Supervisors therefore requests the School Committee to instruct this Board to establish a library of pedagogical and other books at the headquarters of the Board of Supervisors, and requests that an initial appropriation of \$100 be made therefor.

Placed on file.

On motion of Mr. William S. Kenny, it was

ORDERED, That the expenditure of an amount not exceeding one hundred dollars (\$100) toward the establishment of a reference library for teachers in the Mason-street building, is hereby authorized.

Hale also addressed the Committee in remonstrance, the latter presenting a petition from three hundred twenty-nine parents or guardians of children who have graduated from or who are now attending the schools in the Prince District for a reconsideration of the action taken by the Board, so that the schools in this district may continue to have but one daily session; also a communication from Carl Faelten, stating his objections to the two-session plan. TEXT-BOOKS IN PHYSIOLOGY AND HYGIENE.

The following petition was received:—
To the Honorable School Committee of Boston, Massachusetts:—
Inasmuch as the achieving ability of the

people of our state as well as their future intelligent sobriety depends upon the thorough instruction of our children in the physiological reasons for obeying the laws of health including those which teach abstinence from alcoholic liquors and other narcotics, and

Inasmuch as Boston is the recognized center of educational influence in our state, and its most populous city, we deem it of the utmost importance not only to the 94,000 school children of this city but also to the entire population of our commonwealth, that the text-books on Physiology and Hygiene selected for use in our public schools should continue to teach the whole truth concerning the nature and insidious effects of alcoholic drinks and other narcotics upon the human system as revealed by the latest discoveries of experimental science, therefore,

We, the undersigned citizens of Boston, representatives of local temperance societies (which are integral parts of state and national organizations), to whom has been intrusted the promotion of the educational work of our several societies, do respectfully request your honorable Board

FIRST—That you provide the teachers in the three primary grades with an oral lesson book in Physiology and Hygiene to be used as a guide in instructing the 33,000 children committed to their care, and

SECOND—That in selecting additional books on this subject to be used as text and reference books by teachers and pupils of the public schools, you continue to maintain the high standard already established in our city, excluding those text-books on Physiology and Hygiene prepared by Professor H. W. Conn and also those by Dr. William O. Krohn, because notwithstanding the excellencies of these books they now fail to teach the whole truth regarding narcotics as shown by modern science.

Signed,
Katharine Lent Stevenson,
President of Massachusetts W. C. T. U.,
and ten others.

ILLEGAL EMPLOYMENT OF MINORS AND DUTIES OF TRUANT OFFICERS.

The following communication was received:

Commonwealth of Massachusetts,
Executive Department,
Boston, July 17, 1906.

To the School Committee of the City of Boston:—

I beg to call your attention to Bulletin No. 10 of our Decennial Census for 1905 relative to children at work in Massachusetts, from which it appears that upon the first day of May, 1905, the number of children ten years of age and under fourteen found to be at work was 394, this number being employed in apparent violation of law.

I desire also to call your attention to chapter 499 of the Acts of the present year entitled "An Act Relative to the Illegal Employment of Minors, and to the Duties of Truant Officers." This act declares that whoever continues to employ a minor in violation of the provisions of law after being notified thereof by a truant officer or by an inspector of factories and public buildings, shall, for every day thereafter while such employment continues, be punished by a fine of not less than twenty nor more than one hundred dollars, or by imprisonment for not more than six months. Section three of said act is as follows:—"A truant officer may apprehend and take to school, without a warrant, any minor under the age of sixteen years who is employed in any factory, workshop or mercantile establishment in violation of the provisions of sections twenty-eight or twenty-nine of chapter one hundred and six of the Revised Laws, and of any amendments thereof or additions thereto, and such truant officer shall forthwith report to the police, district or municipal court or trial justice within whose judicial district the illegal employment occurs, the evidence in his possession relating to the illegal employment of any child so apprehended, and shall make complaint against whomever the court or trial justice may direct. Any truant of-

ficer who knowingly and wilfully violates any provision of this section may be punished by a fine of not more than one hundred dollars for each offence."

I have to inform you that the number of apparent violations of the laws relative to the illegal employment of minors as reported to the Chief of the Bureau of Statistics of Labor in your city on May 1, 1906, was 121,—to wit, 94 boys and 27 girls.

May I ask that you direct the attention of the truant officers of your city to these reported violations of law and to the obligations placed upon said officers by the terms of chapter 499 of the Acts of 1906, approved June 20th, and that they be directed to use their utmost diligence in seeing to it that the child labor laws, so-called, are strictly enforced against the violators thereof?

Respectfully yours,

Curtis Guild, Jr.

Placed on file, and the Secretary directed to acknowledge the receipt thereof, and to ask for further information with regard to the alleged violations of law referred to in the foregoing communication.

OPERATION OF HEATING AND VENTILATING PLANTS ON WARM DAYS.

A communication was received from the Schoolhouse Commission, under date of July 28, 1906, stating that they are informed that the rule providing that on days when the outside temperature is above sixty-six degrees, the use of all heating and ventilating apparatus shall be discontinued, is interpreted by some janitors to mean that the summer boilers, which are installed for the express purpose of taking care of the ventilation of the buildings during the warm weather and not to heat the same, are not to be run, that these summer boilers are for the purpose of supplying the aspirating coils with heat to secure ventilation in toilet rooms and asking that janitors be instructed on the subject; also a communication from the Schoolhouse Custodian, under date of July 31, 1906, stating that he will instruct the janitors accordingly, but is of the opinion that in certain buildings it would be more economical during warm weather to have the sanitariums ventilated by means of a small electric fan rather than to operate a boiler for that purpose.

Several placed on file, and, on motion of Mr. Thomas J. Kenny, the Secretary was directed to request the Schoolhouse Commission to report on the advisability of ventilating sanitariums during warm weather by means of electric fans rather than by the use of aspirating coils.

RESOLUTIONS ON DEATH OF GRANVILLE S. WEBSTER.

Mr. William S. Kenny offered the following:

RESOLVED, That this Board has learned with deep regret of the death of Granville S. Webster, late principal of the Eliot District.

Mr. Webster was born at Chelmsford, November 27, 1833, and entered the service of the city as usher in the Eliot School

November 3, 1870. On September 1, 1875, he became sub-master of the same school, and was promoted to the position of principal October 7, 1896, where he remained until his death on July 21, 1906.

The thirty-six years that were spent by Mr. Webster in faithful service at the Elliot School were characterized by conscientious and unflinching devotion to duty. He was absent from his school on but two occasions during his long term, and then only because of the death of near relatives. Unassuming, genial, sincere, he labored with untiring fidelity. He was fortunate in that, despite his seventy-two years, he preserved his health and vigor, and apparently a keen enjoyment of his duties until the brief and sudden illness that carried him away.

His memory will long be cherished not only by those with whom he was associated in recent years, but by many men who in former times were identified with the old North End, and whose boyhood years were spent under Mr. Webster's teaching and influence.

RESOLVED, That these resolutions be spread upon the records of this Board, and that a copy thereof be transmitted to Mr. Webster's family as evidence of the high regard in which he was held and as an expression of sympathy in their grief.

The resolutions were adopted by a unanimous vote.

NAMING OF OLD DORCHESTER HIGH SCHOOL.

The following petition was presented:—
To the Boston School Committee:—

The undersigned, principally residents of Dorchester, respectfully petition that the name of the school building, known as the Old Dorchester High, be changed, as it is a misnomer; for the building, as now used, belongs to the elementary system of schools.

The late Doctor Elbridge Smith was the first principal over this building and continued for many years to be its distinguished head-master.

We believe that, were this building to be named after him, it would be regarded by all who knew him well, as a most appropriate and just recognition of his services.

To those who were fortunate in being pupils of Elbridge Smith we believe it will be particularly gratifying, should you see fit to grant this request.

MEDALS FOR PROFICIENCY IN AMERICAN HISTORY.

A communication was received from the Board of Superintendents, under date of Oct. 11, 1906, with respect to the application from Mrs. Helen F. Yeaton, received at the meeting of June 23, requesting that the Col. Thomas Gardner Chapter, D. A. R. be allowed to present to the high and grammar schools of Ward 25 medals for proficiency in American history, substantially as follows:

For many years past, the School Committee has deemed it unwise to allow medals, prizes or rewards of any kind to be given in the schools of Boston. Those who have been connected with the schools for many years are of the opinion that the schools have been benefited by such restriction. The objections to such rewards being given in the schools have been so fully discussed in the newspapers and educational journals that it seems unnecessary to repeat them.

The Board of Superintendents appreciates the value of the interest in the schools on the part of parents and friends, and especially of organizations like the Daughters of the American Revolution and sincerely regrets that it is not able to encourage any and all efforts on their part in the interest of the schools. It feels, however, that there are other ways in which that interest can be shown which would be of value to the schools. Efforts which culminate in the school as a whole rather than in individuals are beneficial.

The Board of Superintendents is very strongly of the opinion that it would be unwise to make any exceptions in this direction, and that the only safe way is to ex-

clude all individual prizes from the public schools; and therefore expresses the hope that this organization may find ways of expressing their interests which would be of advantage to the schools without violating any principle of school administration.

On motion of Mr. Thomas J. Kenny, laid on the table.

EMPLOYMENT OF SUPERVISORS OF PENMANSHIP.

A communication was received from the Board of Superintendents, under date of Oct. 19, 1906, stating that in view of the fact that the teaching of penmanship in the public schools has been somewhat changed and that an impetus towards a business handwriting is absolutely necessary, it seems advisable that for a time the teachers should have the help of experts in this subject. It is believed that the teachers, most of whom have never had expert training, will be greatly benefited by a brief course under those who are qualified to give them assistance. The teachers in the elementary schools need a scientific training, especially in exercises and movements.

The high school teachers need such training that their work may be a continuation of and in harmony with the work done in the elementary schools. The Normal School pupils should have the best training possible to fit them for teaching the subject when they join the corps of teachers.

COMMISSION TO CONSIDER MATTERS AFFECTING HEALTH OF CHILDREN ATTENDING FIRST THREE GRADES.

The following communication was received:—

Oct. 30, 1906.

The Boston School Committee,
Mr. Thornton D. Apollonio, Secretary.
My dear Sir:—

In keeping with the request made by your Committee at the time of the appointment of the Commission "to consider the desirable length of session, periods of recess, curriculum, and all other matters pertaining to the health of the children in the first three grades of the public schools" that a report be made to your Committee not later than November 1st of this year, the following report is presented:—

At the meeting of the Commission, at which the Superintendent of Schools was present, it was appreciated that it would be impossible in this short time, during much of which the schools would not be in session, to make a complete report upon the subject for which the Commission was appointed. Accordingly this report, which we respectfully submit, is merely preliminary to the fuller report to be presented in the future.

Our investigations up to this time have been directed along three lines:

(1). Learning, from copies of the curricula submitted to us by the teachers, the nature of the work done in the first three grades.

(2). Familiarizing ourselves with the extensive literature bearing on our subjects of investigation.

(3). Visiting the schools to determine for ourselves the existing conditions.

Later we are to meet in conference a committee of masters, appointed by the School Committee.

Just how much time will be required to complete our observations it is impossible for us at this time to state, but as soon as the work is completed we will communicate with you at once.

Respectfully submitted,

Joel E. Goldthwait,
George S. C. Badger,
Louis P. O'Donnell,
James S. Stone.

Placed on file, and the Secretary directed to acknowledge the receipt of the foregoing report and to express the thanks of the Board for what the Commission has already done in this matter, and for the further investigation which it proposes to make.

PLAN OF RATING CANDIDATES ON ELIGIBLE LISTS.

A communication was received from the Board of Superintendents, under date of

Nov. 8, 1906, submitting the following in further explanation of the plan of rating candidates on the eligible lists appearing on page 17, School Document No. 9, 1906, Report of the Superintendent, viz:—

"For those granted certificates on examination consideration is given to the following elements in the proportion indicated:—

- I. Personal characteristics, 10 per cent.
- II. Professional preparation, 10 per cent.
- III. Quality and character of teaching experience, 30 per cent.
- IV. Scholarship, 50 per cent."

The method of rating Normal graduates is as follows: Two lists of Normal graduates have been made. The graduates of the class of 1906 have been placed in one list and the graduates of previous years have been placed in another list. This was done because of the difficulty of making fair comparison of the relative merits of girls just graduating from the Normal School and having a very limited amount of experience as teachers, and of those who have been graduated from the Normal School one or more years and who have had a considerable amount of experience in actual classroom work. Also it was believed undesirable to exclude from appointment the best of the graduates of the most recent classes, though naturally the larger proportion of appointments have been made from graduates of preceding years.

For the graduates of the class of 1906 the basis of rating was as follows: At the time of graduation they have two marks, one based upon their scholarship and one based upon their teaching ability as shown by work in observation and practice. Owing to the brief amount of teaching service it seemed advisable to the Board of Superintendents to give less weight to this than to scholarship, therefore for the class graduating in 1906, seven hundred of one thousand attainable points were based upon their scholarship records and three hundred points upon their teaching records.

For the graduates of previous years the method of rating was as follows: For the graduates of 1905 five hundred of the one thousand attainable points were based upon their scholarship records and five hundred points upon their teaching records.

For the graduates of 1904 four hundred of the one thousand attainable points were based upon their scholarship records and six hundred upon their teaching records.

For the graduates of 1903 and preceding years three hundred of the one thousand attainable points were based upon their scholarship records and seven hundred points upon their teaching records. This system of sliding percentages gives increasing emphasis each year to success in teaching. Those graduates finding themselves upon graduation in the lower portion of the class, may feel assured that successful and able work as teachers will, at each re-rating, raise them on the list in proportion to their respective merits and eventually secure for them permanent appointment.

A communication was received from the Schoolhouse Custodian, under date of Nov. 12, 1906, stating that he had interviewed the three candidates certified by the Civil Service Commission for the position of substitute janitor; that Justin H. WASHING OF KINDERGARTEN FLOORS.

A communication was received from the Schoolhouse Custodian, under date of Nov. 19, 1906, pursuant to the action taken by the Board at its meeting of Nov. 12 relative to the petition from Anna M. Whitney, as president of the Roxburghe Club, Eliza J. Bates and Alice M. Hawes, representing the Brighthelmstone club and others, that the kindergarten floors be washed as often as once a week, stating that he is of the opinion that the nature of the wood used in most of the school-house floors is such that washing them once a week would cause them to aliver and split, thereby making them dangerous for the children to play on. It would also cause them to give forth disagreeable odors by moistening the dirt between the cracks which exist in many of the floors; also that he believes a decided improvement can be made in the condition of such floors, so as to meet all of the objections of the petitioners, if they were treated and finished with a durable floor varnish which will make a smooth, polished surface that can be swept daily with sawdust moistened with proper disinfectants, and mopped occasionally with a damp mop to remove any accumulations which may be on them.

On motion of Mr. Brock, it was **ORDERED,** That the following communication be transmitted to the Board of Aldermen in response to the order received at the last meeting of this Board, requesting the School Committee to publish the so-called merit list for teachers, with any revisions or amendments, and also to publish a list of appointments of teachers made from said merit list during the past year, giving the position on the list in each case:—

The Board transmits herewith a list of candidates eligible for appointment to permanent positions as teachers in the public day schools, revised and completed to date, School Document No. 15, 1906.

This document comprises the first list

of candidates eligible for appointment on probation to permanent positions in the public day schools of Boston. It contains the names of all candidates rated in June, 1906, and printed in School Document No. 7, 1906, with the following exceptions: (1) Those appointed to permanent positions in the day school service before June, 1906; (2) those whose names have been removed from the lists by request, as provided in the rules; (3) those who have died since the publication of that document.

It also contains the names of candidates entitled to rating on June 1, 1906, and who have applied therefor after the publication of Document No. 7, 1906, and before October 15, 1906, which was the final date established for revising and completing the first eligible list, and of those entitled to a rating by having successfully passed examinations held since June 1, 1906.

The names of those candidates who have been appointed to permanent positions in the day school service since the adoption of the merit system of appointment in June, 1906, to and including December, 1906, are designated by a t, and these appointments have been made in regular sequence from the highest three on the rated list at the time the appointments were made. If more than two names precede the last one appointed on any list, all but two of those so preceding have declined appointment, except in cases where the names of candidates entitled to and receiving ratings subsequent to the publication of Document No. 7, 1906, as specified in the preceding paragraph, have been inserted at the proper places in the various groups.

A number of candidates when reached in their regular order have declined appointment, either to particular positions then vacant or until some future date. In such cases, and at their own election, these candidates have been passed over in favor of others having a lower rating, but retain their standing on the eligible list.
